

About Bendelta

Founded in 2003, Bendelta has become one of Australia's most highly regarded and awarded management consultancies in Australia. It was one of only 29 companies placed in the BRW Fast 100, for Australia's 100 fastest growing companies, in both 2011 and 2012. In 2013, it also was named as one of Australia's 100 Coolest Companies.

Bendelta specialises in assisting professional services firms and knowledge-intensive organisations with their strategic leadership needs in three ways:

- Developing strategic direction (e.g. through strategic and business planning)
- Improving the effectiveness of leaders (by building skills and behaviours aligned to the strategic needs of the organisation)
- Enhancing the organisation (e.g. through its structure, culture, capabilities or people processes)

Bendelta has worked closely with legal and other professional services firms across 18 countries in the last decade. We have devised highly successful multi-country growth strategies and pioneering leading edge approaches to leadership development, organisational design and performance management. Our clients attest not only to our quality and service but also to our ability to match solutions to the unique strategic imperatives of the organisation.
